Note: See your Therma-Tru seller or visit thermatru.com for details on available product sizes and options, limited warranties and exclusions, and Riders.

# The Importance of Curb Appeal

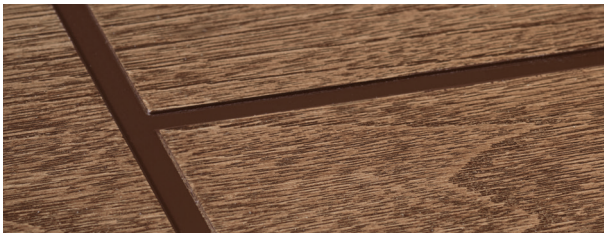
A front door is nearly impossible to ignore when walking into a home and, for potential homebuyers, first impressions are critical. How attractive a home is from the exterior tends to set expectations for the interior and beyond.

## Make a great first impression.

**One in three** homeowners said they were willing to pay a premium for an enhanced entry.[1]

# The Beauty of Choice

The architectural beauty of a Therma-Tru® door is easy to see. With the look of real wood, rich panel details and intricate, handcrafted decorative glass designs, there are thousands of possibilities to suit the style of a home and express a homeowner's personal style.



### DOOR SELECTIONS

Find choices in design, texture and material with many configurations available to find the ideal door system.

### DECORATIVE & SPECIALTY GLASS

Complement any Therma-Tru door with a variety of glass shapes and designs.

### DOOR SYSTEM COMPONENTS

Have confidence in a door system made with genuine Therma-Tru components to meet the needs of many applications.

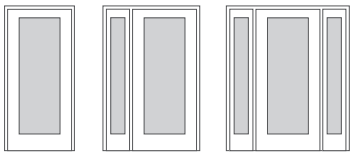
### FINISH OPTIONS

Complete the desired look with stain or paint. Explore a variety of colors from PrismaGuard® premium finish and Same-Day® stain.

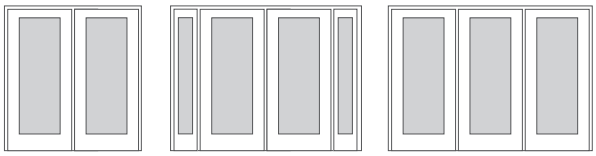
# Entry Door Configurations

Configure a beautiful look to suit your home.

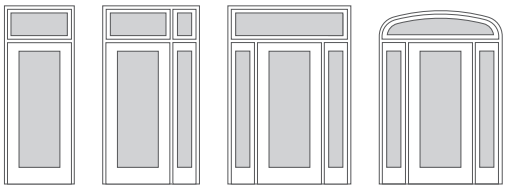
**Single Doors**



**Multiple Doors**

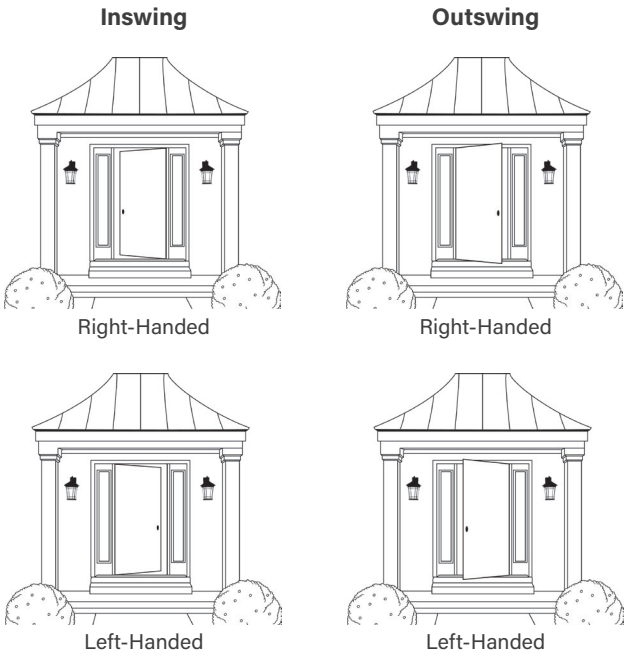


**Transoms**



# Door Swing & Handing

Find the door swing and handing needed for your home. Options include inswing and outswing for right- and left-handed operation.



PRISMAGUARD®

# PrismaGuard® Premium Stain

## Finished for Lasting Beauty

Handcrafted and professionally applied in a controlled environment, a PrismaGuard® premium finish is built to last, giving your customers confidence and peace of mind. Features enhanced durability to protect from everyday wear and tear.

**10 YEAR** LIMITED WARRANTY
Classic Craft Finish
Transferable

**10 YEAR** LIMITED WARRANTY
Fiber-Classic, Smooth-Star, Pulse, Steel Finish

Professional Application

Durable Topcoat

1. It starts with the realistic wood grains and deep embossments of a Therma-Tru door or composite door frame.
2. A base coat provides an even, consistent color across the surface.
3. A wiping stain enhances the base coat while adding dimension to reflect the natural beauty of wood.
4. A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
5. A second application of the topcoat provides added durability and optimal sheen for a high-end look.

### Lasting beauty and color.

Using specialized equipment, PrismaGuard stains and paints are tested to help deliver a consistent high-end appearance perfect for wood-grained or smooth door surfaces.

### Protection from the elements.

Therma-Tru simulates exposure to harsh environments to help verify that PrismaGuard finish coating protects the door from the elements, preserving its color for years to come.

### Resistance against wear and tear.

PrismaGuard finish is subjected to a simulation of everyday use to provide a durable high-end, low-maintenance finish that protects the door from normal wear and tear.

### Confidence on the coast.

Therma-Tru simulates a highly corrosive atmosphere to help ensure PrismaGuard finish can withstand the damaging effects of high-salt environments near the coast.

Order 4" x 4" samples of select PrismaGuard finish colors at **store.thermatru.com**.

## Stain Options (shown in Fir Grain)

Tumbleweed | Acorn | Wildflower Honey | Rustic Clay | Barley | Mulberry | Autumn Harvest | New Earth | Driftwood | Raven

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

# True-to-Wood Origins

Revel in the handcrafted look and feel of a premium fiberglass entryway with true-to-wood origins. Discover exquisite textures with grains hand-selected from the finest natural wood species and meticulously recreated with our revolutionary AccuGrain® technology.

AccuGrain® TECHNOLOGY

### FIR GRAIN

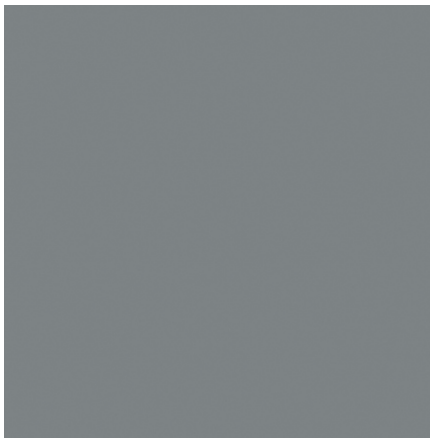
Designed to echo the grain of the largest species of American Hemlocks — the Western Hemlock tree — found in lush coastal rainforests of the Pacific Northwest.

### WALNUT GRAIN

Crafted to reflect the prized hardwood of the mighty Black Walnut trees, these doors feature a horizontal grain with natural movement accented by delicate arches and cathedrals.

### MAHOGANY GRAIN

Derived from the finest African and Honduran Mahogany, blending rustic influences with exotic roots to build upon the rich history of one of the most renowned woods in the world.



### CANVAS

Inspired by the world's most exquisite masterpieces and designed with the architectural character of finely sanded wood.

# Comprehensive warranties for peace of mind.

LIFETIME LIMITED WARRANTY
Classic Craft
Transferable

Uniquely designed by Therma-Tru, Classic Craft® complete entryway systems are backed by an industry-leading lifetime limited warranty that can be transferred one time to a new owner, should you ever sell your home.

10 YEAR LIMITED WARRANTY
Classic Craft Finish
Transferable

In addition, Classic Craft entryways with our handcrafted and professionally applied PrismaGuard® premium stain or paint are backed by a transferable 10-year limited finish warranty — Therma-Tru's best. The balance of this finish warranty can transfer to a second owner.

Learn about our warranties at **thermatru.com/warranty**.

# Premium construction, inside and out.

Highlighting the best of craftsmanship and innovation, Classic Craft® premium entryways boast impressive, well-designed features and remarkable construction. The inner workings of each Classic Craft door lay the foundation for exceptional strength, security, energy efficiency and long-term performance you can depend on for years to come.

## ENGINEERED FOR MOISTURE PROTECTION

Features composite top and bottom rails and solid hardwood edges for increased moisture and rot protection all the way around the door.

## DESIGNED WITH AUTHENTICITY

Features construction identical to wood doors with narrow stiles and rails, and flush-glazed glass options that are more than 10% wider[1] to welcome more natural light into the home.

## TESTED TO WITHSTAND MOTHER NATURE

Designed and rigorously tested to withstand and protect from the damaging effects of harsh weather conditions.

## THERMA-TRU® DOOR FRAME

Created specifically for Therma-Tru doors to deliver an entire entry system designed and engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

# EnLiten™ Flush-Glazed Designs

## For Classic Craft®, Fiber-Classic® & Smooth-Star® Doors & Sidelites

Simplified beauty. Resilient designs. With clean lines and seamless construction, EnLiten flush-glazed designs are perfect for today's homes. Built for long-term performance, these doors and sidelites feature the sleek looks homeowners want and the stylish around-the-home solutions they need. Look for the (🔥) icon.

### Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

### 11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

### Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

**Flush-Glazed Glass**

**Lip-Lite Frame**

## Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

## Maximum views.

Create an airy, open feeling in the home with larger daylight openings. EnLiten™ flush-glazed designs offer up to a 16% increase in visible glass area than conventional lite frames.

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.
**Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Impact-rated products not available.

### See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

**Flush-Glazed Glass with Detailed Sticking**

**Flush-Glazed Glass with Square Sticking**

**Lip-Lite Frame**

## Warranty riders for peace of mind.

### EnLiten™ Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

### EnLiten™ Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish $300 toward installation and replace the flush-glazed fiberglass door or sidelite.

# Fiber-Classic® & Smooth-Star®

## Grain Options

### FIBER-CLASSIC® MAHOGANY COLLECTION™

Fiber-Classic Mahogany complements rich wood tones in home interiors, extending the look to the outside with beauty and elegance.

### FIBER-CLASSIC® OAK COLLECTION™

Fiber-Classic Oak is the door that started the fiberglass revolution and features the warm look and feel of natural Oak graining.

### SMOOTH-STAR®

Smooth-Star fiberglass doors are ready-to-paint with crisp, clean contours making them the more attractive and durable alternative to steel.

## See the difference color can make.

Therma-Tru offers a wide variety of finish options for our doors. Explore PrismaGuard® premium finish and Same-Day® Stain color options.

## Glass Options

- Explore a portfolio of interchangeable decorative glass designs, and privacy and textured glass options.
- Lite frame options include Advanta® lite frame with no screw plugs and a standard Lip-lite frame. Both feature 22" wide glass and are suitable for use with a storm door.
- Welcome even more light into the home with EnLiten™ flush-glazed designs with 25–27" wide glass.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

[1]Comparison of pendulum impact test results for Therma-Tru doors in steel versus fiberglass. Visit thermatru.com for details.
[2]Comparison of fiberglass to wood doors (both without glass).

# Fiber-Classic® and Smooth-Star® Door Construction

Fiber-Classic and Smooth-Star doors set the standard for beauty, quality and performance at an excellent value. Explore the craftsmanship and innovation of doors designed for long-lasting energy efficiency, durability and security.

## 1 WEATHER RESISTANCE

Composite rails protect the door at the top and bottom edges to help block moisture that can wick into doors.

## 2 SECURITY

Our fiberglass door slabs are up to 30% more resistant to kick-ins than standard steel doors.[1] Our Fiber-Classic and Smooth-Star doors feature an enhanced lock block combined with a 1-¼" engineered lumber lock stile which increases rigidity and stability.

## 3 DURABILITY

With very little maintenance, a fiberglass door can bring a home years of durability. Unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust.

## 4 R-VALUES

Built with a polyurethane foam core that offers up to four times the insulating R-Value of wood[2], Therma-Tru® fiberglass doors insulate against cold and heat for exceptional energy efficiency.

## 4 OPTIONAL COMPOSITE EDGE

Tru-Guard™ composite edges are engineered to work together with composite top and bottom rails and durable fiberglass door skins to help protect from water absorption and rot on all six sides.

**NEW Select full-lite configurations are now available with triple-pane Low-E clear and privacy glass options to meet ENERGY STAR® requirements in all 50 states.**

# Also Available:

## Low-E Glass

In cold weather, Low-E glass reflects a home's heat back inside to help keep the home warm.

In warm weather, Low-E glass reflects the sun's rays off the glass and a home's air conditioning back inside to help keep the home cool.

[1]Available in Special Quote Program.

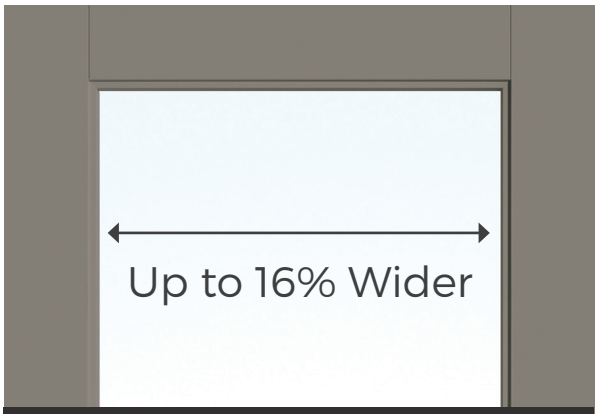
# EnLiten™ Flush-Glazed Designs

EnLiten flush-glazed designs feature double- or triple-pane glass built directly into the door with a high-performance dual adhesive weather seal. This creates a seamless look with a simple profile around the glass and no lite frame or screw plugs. Expand your view by 16%[1] — choose flush-glazed glass for more natural light and a sleek, uninterrupted aesthetic.



**Flush-Glazed Glass**

**Lip-Lite Frame**

## See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

**Flush-Glazed Glass with Detailed Sticking**
Look for the ( ) symbol.

**Flush-Glazed Glass with Square Sticking**
Look for the ( ) symbol.

**Lip-Lite Frame**

[1]EnLiten flush-glazed designs offer up to a 16% increase in visible glass area compared to conventional lite frames.
Note: See your Therma-Tru seller or visit thermatru.com for details on product sizes and options, limited warranties, exclusions and Riders.

## Warranty riders for peace of mind.

### EnLiten™ Flush-Glazed Riders

**For Construction & Installation**

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

**For Homeowners**

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish $300 toward installation and replace the flush-glazed fiberglass door or sidelite.

## Key

- No Stile Lines
- Flush-Glazed Glass
- Vented Sidelite
- Black Nickel
- Brushed Nickel
- Brass
- Wrought Iron
- XK ..... Reeded
- XE ..... Satin Etch
- XC ..... Chord
- XJ ..... Chinchilla
- XR ..... Rainglass
- XN ..... Granite
- LE ..... Low-E
- LE3
- CL ..... Clear
- Flat Frame

### ADVANTA LITE FRAMES (ADV)

- Scrolled & Flat Advanta Lite Frame
- Scrolled Advanta Lite Frame
- Flat Advanta Lite Frame
- Standard Lite Frame Available
- 20-Minute Fire-Rated
- 90-Minute Fire-Rated
- WBDR Options
- WBDR / HVHZ Options

### DOOR DIVIDER BARS (DDB)

- 2 ..... Door Divider Bars (3 1/2")
- 3 ..... Door Divider Bars (4 1/4")
- 4 ..... Door Divider Bars (5 1/2")
- 5 ..... Door Divider Bars (4 1/4" & 5 1/2")
- E ..... Elevated 10" Bottom Rail Options

### SIMULATED DIVIDED LITES (SDL)

- Simulated Divided Lites
- 1 ..... 1 1/8" Flat SDL
- 2 ..... 3 1/2" Flat SDL
- 3 ..... 4 1/4" Flat SDL
- 4 ..... 5 1/2" Flat SDL
- 5 ..... 4 1/4" & 5 1/2" Flat Combo SDL
- 6 ..... 1 3/5" Flat SDL
- FXG ..... Fixed Grilles

### FLAT PROFILE GRILLES BETWEEN GLASS (GBG)

- GBGFW ..... Flat White GBG
- GBGFA ..... Flat Almond GBG
- GBGFB ..... Flat Bronze GBG
- GBGFK ..... Flat Black GBG

### CONTOUR PROFILE GRILLES BETWEEN GLASS (GBG)

- GBGCW ..... Contour White GBG
- GBGCK ..... Contour Black GBG

Pulse Echo, Low-E Glass, Doors – S85CL

## Key

- ..... No Stile Lines
- ..... Flush-Glazed Glass
- ..... Vented Sidelite
- ..... Black Nickel
- ..... Brushed Nickel
- ..... Brass
- ..... Wrought Iron
- XK ..... Reeded
- XE ..... Satin Etch
- XC ..... Chord
- XJ ..... Chinchilla
- XR ..... Rainglass
- XN ..... Granite
- LE ..... Low-E
- ..... LE3
- CL ..... Clear
- ..... Flat Frame

### ADVANTA LITE FRAMES (ADV)

- ..... Scrolled & Flat Advanta Lite Frame
- ..... Scrolled Advanta Lite Frame
- ..... Flat Advanta Lite Frame
- ..... Standard Lite Frame Available
- ..... 20-Minute Fire-Rated
- ..... 90-Minute Fire-Rated
- ..... WBDR Options
- ..... WBDR / HVHZ Options

### DOOR DIVIDER BARS (DDB)

- 2 ..... Door Divider Bars (3 1/2")
- 3 ..... Door Divider Bars (4 1/4")
- 4 ..... Door Divider Bars (5 1/2")
- 5 ..... Door Divider Bars (4 1/4" & 5 1/2")
- E ..... Elevated 10" Bottom Rail Options

### SIMULATED DIVIDED LITES (SDL)

- ..... Simulated Divided Lites
- 1 ..... 1 1/8" Flat SDL
- 2 ..... 3 1/2" Flat SDL
- 3 ..... 4 1/4" Flat SDL
- 4 ..... 5 1/2" Flat SDL
- 5 ..... 4 1/4" & 5 1/2" Flat Combo SDL
- 6 ..... 1 3/5" Flat SDL
- FXG ..... Fixed Grilles

### FLAT PROFILE GRILLES BETWEEN GLASS (GBG)

- GBGFW ..... Flat White GBG
- GBGFA ..... Flat Almond GBG
- GBGFB ..... Flat Bronze GBG
- GBGFK ..... Flat Black GBG

### CONTOUR PROFILE GRILLES BETWEEN GLASS (GBG)

- GBGCW ..... Contour White GBG
- GBGCK ..... Contour Black GBG

Traditions Door – TS289XE, Satin Etch Glass, Double Doors, Finish – Onyx

# Composite Door Frame[1]
## featuring Tru Guard™ Composite Technology

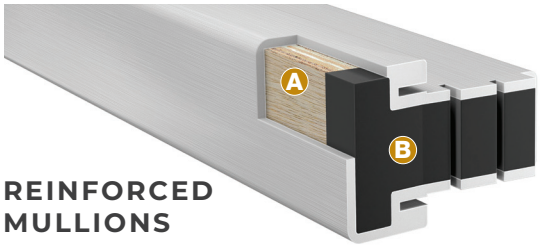
TRU GUARD
COMPOSITE TECHNOLOGY

Interior Exterior

1 Brickmould 2 Jamb 3 Mullions 4 Cove Mould 5 Transom Sill

Composite door frame featuring Tru-Guard™ composite technology provides a rot-free solution engineered to work together with rot-resistant Therma-Tru doors and components.

- Delivers extra protection from the damaging effects of outside elements for peace of mind.
- Eliminates the risk of rot and wood-ingesting insects with a durable composite material that is virtually maintenance free. Rot-free door frame does not absorb moisture and resists mold, mildew and fungus.



### REINFORCED MULLIONS

Provide additional structural support and stability. All mullions are reinforced with a co-extruded A LVL core to provide additional structural support and stability and feature a B composite-capped bottom to eliminate the risk of water absorption and maintain a rot-free composite exterior.

### AVAILABLE TEXTURES

**Buff Grained**

- Features a universal wood grain to complement a wide range of grain species.
- Stain or paint to complement the entry – no sanding or priming required.

**White Smooth**

- Features a matte finish similar to painted wood and includes a protective layer with UV inhibitors to help resist yellowing and fading.
- Ready to install as-is – no painting required. Or finish with stain or paint to complement the entry – no sanding or priming required.

## Warranty

[1]See your Therma-Tru seller for details on product availability.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on available product sizes and options, limited warranties and exclusions, and Rider. Frame-only warranty option for customers without a Therma-Tru door system.

# Fiberglass Door Systems Built for Safety & Security

Protect the home and everything in it, from family and pets to valuables and keepsakes. Therma-Tru products are designed for durability and enhanced security with pieces and parts engineered as a complete system.

## DID YOU KNOW?

**On average, a home is burglarized in the U.S. every 4 minutes.**[1]

**More than half of home burglaries occur during the daytime.**[1]

### THERMA-TRU® COMPOSITE DOOR FRAME

Our rot-free composite door frame is 50% stronger at resisting forced entry than wood.[2]

- Features full-length jambs with no finger joints for more reliable performance, and a continuous composite material that will not deteriorate over time, like wood.
- Entries with a wooden door frame are more susceptible to being kicked in as compared to a Therma-Tru composite door frame, giving burglars access to your home within seconds.
- Wood jambs typically have finger joints. These areas where two pieces of wood come together are structurally weaker when compared to a single continuous material that runs the entire length of the jamb.

**Scan to see our products put to the test.**

Therma-Tru Wood Jamb | Therma-Tru Composite Jamb

### THERMA-TRU FIBERGLASS DOOR SLAB

Up to 30% more resistant to kick-ins than standard steel doors.[3]

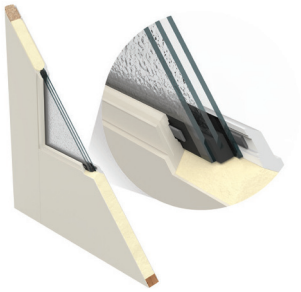
Features durable construction that can withstand impact by absorbing and deflecting the force.[3]

- Built with enhanced lock blocks to help ensure proper handleset reinforcement, combined with lock and hinge stiles that increase rigidity and stability.
- Fiberglass will not dent or rust, nor will it warp, split, crack or rot.

Pendulum Impact Test

### THERMA-TRU GLASS

- Options feature double- or triple-pane construction and include two panes of tempered glass for enhanced safety and performance.



[1]Source: FBI Crime Data Explorer.
[2]Comparison of pendulum impact test results for Therma-Tru composite door frame and standard finger-jointed Pine wood door frame, both with similar pre-hung doors.
[3]Comparison of pendulum impact test results for Therma-Tru doors in steel versus fiberglass. Visit thermatru.com for details.

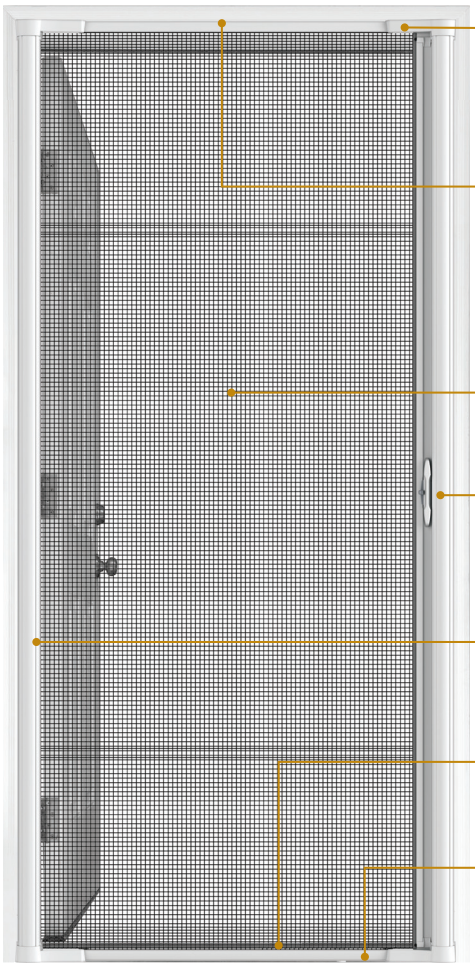
# Retractable Screen Doors

Welcome fresh air and natural light into the home while keeping debris and insects out. Therma-Tru retractable screen doors feature a discreet, hidden design that helps provide a seamless transition from indoors to out. Plus, they have been quality tested for compatibility with Therma-Tru® entry door systems.



**E-Z Glide System** enables smooth screen retraction and extension without slamming.

**Face mount installation** allows for an easier install while providing a full pass-through space without an intrusive cassette or track.

**Fiberglass screen mesh** fully retracts when not in use.

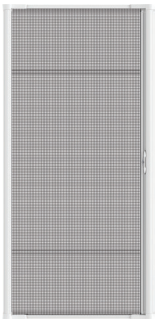
**One-hand operation** with a secure and ergonomic latch / lock handle.

**Rust-proof aluminum** housing and track for strength and beauty.

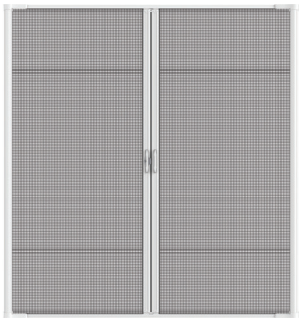
**Universal sill plate** designed for simple and secure fit.

**Quick-Snap Track** adjusts to required length in seconds – no cutting required.[1]

## Available Sizes (Available for most inswing units.)



**Single Door System**
Widths: 32"–36"
Heights: 6'6", 6'8", 8'0"



**French Door System**
Widths: 68"–73"
Heights: 6'6", 6'8", 8'0"

## AVAILABLE COLOR OPTIONS

Coordinates with exterior trim.[2]

White Brown Black

## WARRANTY COVERAGE

All parts are covered by the Therma-Tru full-system limited warranty, excluding the screen mesh, when purchased and installed with a Therma-Tru door system.

LIFETIME LIMITED WARRANTY
Classic Craft Transferable

LIFETIME LIMITED WARRANTY
Fiber-Classic, Smooth-Star, Pulse Fiberglass

10 YEAR LIMITED WARRANTY
Profiles, Traditions, Pulse Steel

LIFETIME LIMITED WARRANTY
When purchased and installed separately all parts are covered by a full-system lifetime limited warranty, excluding the screen mesh.

[1]Adjusts quickly for 32"–36" doors. If less than 32" a hacksaw is required for one cut to each track.
[2]Retractable screen frame colors are complementary to PrismaGuard, but not an exact match.
Note: Recommended for inswing applications only. Therma-Tru retractable screens are designed to support natural ventilation and protection against airborne insects and other pests. Windy conditions may affect the performance of the screen. Retract the screen in windy circumstances, during inclement weather and when not needed to support immediate ventilation or prolonged periods of time when not used. Not intended to keep pets inside. See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

## Independent Laboratory Performance Testing

At the time of manufacture, Therma-Tru exterior door systems (properly assembled with all genuine Therma-Tru components) have been tested under one or more of the following performance specifications: structural load, uniform load deflection, vertical load resistance, air infiltration, water penetration resistance, forced entry resistance, operating forces, force to latch, deglazing resistance, operating cycle performance, impact resistance, sound transmission, thermal performance and solar heat gain performance. Therma-Tru exterior door systems conform to the applicable Performance Standards / Test Methods that may include ANSI/AAMA/NWWDA 101/I.S.2, AAMA/WDMA 101/I.S.2/NAFS, AAMA/WDMA/CSA 101/I.S.2-A440, ASTM E330, ASTM E547, ASTM E283, ASTM E331, ANSI/BHMA A156.2, AAMA 1304, AAMA 920, AAMA 925, ASTM E2068, ASTM F842, ASTM E987, ASTM E1300, ASTM E90, ASTM E413, ASTM E1332, ASTM E1886, ASTM E1996, PA/TAS 201, PA/TAS 202, PA/TAS 203, HUD UM89, AAMA 1702.2, 24 CFR 3280, 24 CFR 3282, NFRC 100 and NFRC 200. Refer to thermatru.com for design pressure and other performance ratings.

## Doors

Recommended Door Overhang – For best performance, all doors should be protected by an overhang. The recommended size is half the distance from the base of the door to the bottom of the overhang. So, as an example, a distance of 10' for this dimension would require an overhang of 5' minimum. For wetter climates, southern or western exposures, and for double doors, the overhang should be the same as the distance from the base of the door to the bottom of the overhang. In this same example, the dimension is 10' so the overhang should be 10'.

For best performance, double doors to be used in areas with severe weather exposure must be installed using entry alcoves or large soffit overhangs to protect entry unit from exposure. Multi-point locking systems are highly recommended for 8'0" and double door applications.

## Doorlites

Doorlites are insulated, and exposed panes are tempered or laminated. Optional wood grilles available for clear doorlites and transoms.

Inserts – All glass (except flush-glazed styles) shall be bedded with glazing mastic and secured in doors with screws. Therma-Tru's SMC and BTS doorlite frames are available for most styles except where noted. SMC and BTS frames shall resist significant deformation by heat up to 200 degrees Fahrenheit, regardless of paint or stain color or placement behind a storm door.

PVC doorlite frames must be finished within 30 days of installation. Failure to do so will increase the chance for product damage of the type that is not covered by the warranty. PVC doorlite frames are not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Decorative Glass & Wrought Iron – Each Therma-Tru decorative glass unit is handcrafted by skilled artisans replicating Old World techniques. Each piece is a unique work of art and many things that would appear to be imperfections (small bubbles, lines and waves within the glass) are normal and are part of the designs character.

Direct Set Sidelites – All Therma-Tru direct set sidelites shall utilize trim components secured and glazed in place in the door jamb.

Condensation occurs naturally in the home, caused by excessive humidity in the air. Often this harmless water vapor can be seen collecting on glass surfaces, such as doorlites. Energy-efficient glass units in Therma-Tru door systems are constructed to keep the glass as warm as possible, reducing condensation build-up. However, there is no such thing as a condensation-free window or doorlite in high-humidity conditions.

A common attribute of true wrought iron doorlites is that a rattle sound may be heard when closing the door. This is solely a function of having real wrought iron which is heavy and has the ability to flex, moving back and forth within a narrow airspace surrounded by glass that has very little flex. This characteristic is not considered a defect or warranty issue.

**NOTE: Glass privacy ratings are determined by the 1/2-lite glass size. As a result, the amount of privacy / glass transparency may be more or less than indicated by the privacy rating, based on the glass design and size of the glass that is inserted into the door, sidelite or transom.**

**Glass designs may differ from depiction due to the size and hand craftsmanship of glass. See your Therma-Tru seller or visit thermatru.com for more details.**

## Components

Adjustable Security Strike Plate – Proprietary adjustable type, permitting in-out adjustment of door in frame, up to 3/16".

Hinges – Minimum hinge size 4" x 4" x .098".

Ball-bearing hinges are recommended for 8'0" doors, doors using heavy lites (e.g., wrought iron), all 20-Minute Fire-rated fiberglass doors, Impact-rated doors and glass, and all Classic Craft doors.

Use of the multi-point locking system is highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.

Please be aware that single door units built with public access sills have little resistance to water penetration, and double doors built with these sills have a potential to leak if installed exposed to weather. We recommend that units be installed away from weather under large soffits or overhangs.

Use of a sill pan is recommended.

Fiber-Classic and Smooth-Star dentil shelves are not recommended for placement behind storm doors or to be painted dark colors, if exposed to direct sunlight.

## Impact-Rated Products

Impact-rated products must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Visit www.thermatru.com for product approvals and full details on WBDR- (Wind-Borne Debris Region) / HVHZ- (High Velocity Hurricane Zone) compliant products. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

## Fire-Rating Performance Standards

Fire and building codes vary throughout the country and acceptance of products and labels is left to the discretion of the local authorities.

MODIFICATION OF PRODUCTS DESCRIBED IN THIS BROCHURE WHICH CARRY FIRE RATINGS (DOORS AND FRAMES) MAY VOID THE FIRE RATINGS.

Test conducted by Intertek, Warnock-Hersey.

## Limited Warranties

Please be aware of the applicable Therma-Tru Limited Warranty which contains important restrictions, disclaimers, exclusions and conditions, as well as the below listed Installation, Finishing & Maintenance documents, related to the Therma-Tru product purchased (e.g., Fiberglass, Steel, Patio Door Systems), all of which can be obtained from your Therma-Tru seller or found in their entirety at thermatru.com:

- Therma-Tru® Fiberglass and Steel Door Systems Residential Limited Warranty: Fiberglass – Classic Craft®, Fiber-Classic®, Smooth-Star® and Pulse® Door Systems; Steel – Pulse®, Profiles™, and Traditions Door Systems
- Therma-Tru® Tru-Defense® Door System Rider to Fiberglass Door Systems Limited Warranty: Classic Craft®, Fiber-Classic®, Smooth-Star® and Pulse® Fiberglass Door Systems
- EnLiten™ Flush-Glazed Construction & Installation Rider to Fiberglass Door Systems Limited Warranty for Residential and Multi-Resident Premises: Classic Craft®, Fiber-Classic® and Smooth-Star® Flush-Glazed Fiberglass Door Systems
- EnLiten™ Flush-Glazed Homeowner Rider to Fiberglass Door Systems Limited Warranty for Residential and Multi-Resident Premises: Classic Craft®, Fiber-Classic® and Smooth-Star® Flush-Glazed Fiberglass Door Systems
- PrismaGuard® Limited Warranty Rider to Fiberglass and Steel Door Systems Limited Warranty for Residential and Multi-Resident Premises: Fiberglass – Classic Craft®, Fiber-Classic®, Smooth-Star®, and Pulse® Door Systems; Steel – Pulse®, Profiles™ and Traditions
- Same-Day® Stain 5-Year Limited Warranty: Same-Day® Stain and Topcoat for Use on Therma-Tru® Fiberglass Door Systems and Fypon® Stainable Polyurethane Products
- Therma-Tru® Composite Door Frame featuring Tru-Guard™ Composite Technology Limited Warranty for Residential and Multi-Resident Premises: Classic Craft®, Fiber-Classic®, Smooth-Star® and Pulse® Fiberglass Door Systems
- Therma-Tru® Composite Door Frame featuring Tru-Guard™ Composite Technology Limited Warranty Transferable Rider to Fiberglass Door Systems Limited Warranty for Residential and Multi-Resident Premises: Classic Craft®, Fiber-Classic®, Smooth-Star® and Pulse® Fiberglass Door Systems

## Installation, Finishing & Maintenance

Therma-Tru doors and sidelites come unfinished. Installation, finishing and maintenance must be performed according to Therma-Tru's recommendations to comply with warranty requirements. Obtain a copy of the following documents outlining recommendations from your Therma-Tru seller or find them in their entirety at thermatru.com:

- Installation Instructions (Products that are approved for Coastal and / or high wind applications may require special installation. Always follow the installation instructions in the Product Approval for these products.)
- Therma-Tru Fiberglass and Steel Door Systems Recommendations for Proper Finishing and Painting or Staining

**NOTE: Finish colors may vary from an actual application due to fluctuations in finishing or the printing of this catalog. See your Therma-Tru seller or visit thermatru.com for more details.**

# Why OrePac

## Our History

OrePac is a family-owned and operated business, founded by the Hart family in 1977. Through strong leadership and a commitment to success, the company has grown into one of the premier distributors in the building industry.

Trust, integrity, and a dedication to excellence are the values most important to OrePac. That commitment can be found in the services we offer, the quality of the products we provide, and the way we treat our employees and customers. This dedication to our markets has enabled us to make a positive impact on the shelter industry and the communities we serve.

## OrePac Marketplace

At OrePac, our goal is to **Make Complicated Simple™**. That's why we've created an industry-leading configurator to simplify the door ordering process for our dealers. Talk to your OrePac Sales Representative to find out more about this easy and time-saving tool.
