

Aluminum Picket Railing System

PFX 1000

PFX 1000

“Carefree” is the goal of your outdoor living space. Aluminum PFX 1000 can help you meet your “carefree” goal with a virtually maintenance-free product that comes with a limited lifetime structural warranty.

The robust Aluminum PFX 1000 system is made of extruded aluminum that will never rust and exceeds IBC and IRC requirements to provide the structure you need.

Available in AAMA-2604 powdercoat textured black finish, Aluminum PFX 1000 gives your space the contemporary style you want.

Rail panels are ideal for commercial-grade projects.

Square balusters snap into top and bottom rail for a solid tension fit. Contemporary shaped top rail design provides a more robust aesthetic than other metal rail systems. Speed of assembly, the ease of stair angle accommodation and the unprecedented strength make the PFX 1000 the perfect rail for both commercial and residential projects.

NEW PRODUCT
Tension Fit Balusters
 Rail internal fins provide tension against the baluster.

Level Brackets

Level

SOLUTIONS

For your unique outdoor space, Aluminum PFX 1000 has unique bracket solutions.

Horizontal Angle Pivot
The simple solution to unique or unknown level rail installation angles is the new Horizontal Angle Pivot. Provides a range of motion up to 45 degrees while mounting on a 3" Post.

Post-to-Post Installation

Surface Mount

Post Width	Post Style	Post Height			Optional Mount Place
3"	Surface Mount	36"	42"	Stair	

Post spacing up to 10'.

Post kit individually boxed and includes post, post cap and post skirt.

RailFX Tool

- Makes an easy installation even easier.
- This optional tool overlaps the 3" posts.
- Provides pre-drill positioning for all pre-cut bracket configurations.
- Works with all Aluminum PFX 1000 Series.
