### **OrePac Building Products closes on Bridger Forest Products acquisition.**

*Wilsonville, Oregon - February 1, 2016* - OrePac Building Products, wholesale distributor of specialty interior and exterior building materials has formally closed on the acquisition of Bridger Forest Products.

Bridger brings a strong reputation of service and quality to the Montana, South Dakota, and Wyoming markets, which was a key element to OrePac's interest in acquiring the company. Bridger's commitment to service will align well with OrePac's overall value proposition.

Bridger Forest Products is a specialty building products wholesaler that was opened in Belgrade, Montana in 1995. The company has established a strong following of dealers who value quality and service. Bridger's commitment to Montana and the neighboring states has solidified their position as a top tier supplier.

OrePac Building Products with headquarters in Wilsonville, Oregon is family owned and operated. The company was founded in 1977 and currently operates 10 distribution centers throughout the West.

OrePac is excited about the opportunity to continue building upon the loyalty that Bridger has earned over the past 20 years.
